## **→** INTRODUCTION

This Activity Report sets out the actions carried out by the Spanish Network of Cities for Climate since April 2020 to Marche 2021, according to the work plan set out in the Resolution on the granting of subsidies under article 22.2.C) of the General Subsidies Law between the Ministry for Ecological Transition and the Demographic Challenge, and the Spanish Federation of Municipalities and Provinces, to promote and facilitate the development of local actions in the field of climate change.

## 1 | 8<sup>th</sup> LOCAL GOOD PRACTICES FOR CLIMATE AWARD

In 2020, the Spanish Network of Cities for Climate announced the eighth edition of the Local Good Practices for Climate Award, created in 2006 and held biannually and aimed at City Councils, Provincial Councils and Island Councils which are members of this Network.

The Award was created with the aim of collecting and disseminating the results of the initiatives carried out by the members of the Network to prevent climate change. Over the years, new categories have been added, such as those related to adaptation to the effects of climate change and governance tools to address it.

The 8<sup>th</sup> Local Good Practices for Climate Award has presented the actions developed to address climate change since 2014 within the following categories:

- Mobility Management
- Circular Economy
- Energy transition, urban regeneration, and renewal
- Adaptation to climate change
- Nature-based Solutions
- Citizen awareness and sensitization
- Public participation

The category of Nature-based Solutions has been incorporated into the Award because of the important role they can play as a sustainable tool for tackling climate change.

The deadline for submission of actions ended on 15<sup>th</sup> January 2021 with the receipt of 94 actions submitted by 55 Local Governments belonging to the Network.

The Local Governments participating in the 8th Local Good Practices for Climate Award, by categories, were:

- Mobility management: City Councils of Alboraya, Benidorm, Burgos, Cabra, Calvià, Gavà, La Rinconada, Madrid, Murcia, Pamplona, Táliga and Villena; Badajoz Provincial Council and Cádiz Provincial Council.
- Circular Economy: City Councils of Alhaurín de la Torre, Málaga, O Grove, Ponferrada, San Pedro del Pinatar and Vélez-Málaga; Pontevedra Provincial Council.
- Energy transition, urban regeneration, and renewal: City Councils of Alicante, Cieza, Coín, Donostia-San Sebastián, Gáldar, Montilla, Paiporta, Palma del Río, San Javier and Táliga; Menorca Island Council, Barcelona Provincial Council and Jaén Provincial Council.

- Adaptation to climate change: City Councils of Calvià, L'Hospitalet de Llobregat, Riba-roja de Túria and Sevilla; Albacete Provincial Council, Cádiz Provincial Council and Jaén Provincial Council.
- Nature-based Solutions: City Councils of A Coruña, Alaquàs, Aranjuez, Astillero, Burgos, Calvià, Coria del Río, Mollet del Vallés, Paracuellos del Jarama, Parla, San Javier, San Pedro del Pinatar, Táliga and Villamuriel del Cerrato; Badajoz Provincial Council, Jaén Provincial Council and Pontevedra Provincial Council.
- Citizen awareness and sensitization: City Councils of Alcobendas, Fuenlabrada, Gijón, Granollers, Palma del Río, Santa Cruz de Tenerife, Vedra and Villena; Albacete Provincial Council, Málaga Provincial Council and Pontevedra Provincial Council.
- Public participation: City Councils of Getafe, Icod de los Vinos and Táliga; Pontevedra Provincial Council.

The Local Governments awarded in the 8th Local Good Practices for Climate Award were the following:

	1	AWARDED	
CATEGORY ICON	CATEGORY	LOCAL GOVERNMENT	GOOD PRACTICE
	MOBILITY MANAGEMENT	Pamplona City Council	Promoting Cycling Mobility in Pamplona
	CIRCULAR ECONOMY	Málaga City Council	Sustainable Audiovisual Productions Label
att.	ENERGY TRANSITION, URBAN REGENERATION AND RENEWAL	Menorca Island Council	Menorca 2030 Strategy. Roadmap for the decarbonization of the island
	CLIMATE CHANGE ADAPTATION	Cádiz Provincial Council	Program for Coastal Management in the province of Cadiz
	NATURE-BASED SOLUTIONS	A Coruña City Council	Urban Gardens Network
	CITIZEN AWARENESS AND SENSITIZATION	Malaga Provincial Council	Málaga Viva, Empowered citizenship in the fight against climate change in the province of Malaga
	PUBLIC PARTICIPATION	Icod de los Vinos City Council (Santa Cruz de Tenerife)	Participation Platform "Icod against Climate Change".

	I	FINALISTS	
CATEGORY ICON	CATEGORY	LOCAL GOVERNMENT	GOOD PRACTICE
	MOBILITY MANAGEMENT	Murcia City Council	Promoting Electric Mobility
	CIRCULAR ECONOMY	San Pedro del Pinatar City Council (Murcia)	Community Home Composting Project
	ENERGY TRANSITION, URBAN REGENERATION AND RENEWAL	Vedra City Council (A Coruña)	VAGON COWORKING 2020
	CLIMATE CHANGE ADAPTATION	Riba-roja de Túria City Council (Valencia)	GUARDIAN (Green Urban Actions for Resilient FIRE Defence on the Interface Area)
	NATURE-BASED SOLUTIONS	Parla City Council (Madrid)	Humanejos Stream Restoration Project
	CITIZEN AWARENESS AND SENSITIZATION	Albacete Provincial Council	School Agenda 21 - Horizon 2030. Climate Change thematic
	PUBLIC PARTICIPATION	Getafe City Council (Madrid)	ALBA Project: Local Action for a Native Acorn

In order to fulfil the objective of the Awards to give the broader possible dissemination to the actions presented for the 8th Local Good Practices for Climate Award, a compilation of the same was made, which can be consulted in the Activities section of the Network's website <a href="https://www.redciudadesclima.es">www.redciudadesclima.es</a>, together with videos summarizing the good practices awarded in this year's edition.

Guía para la aplicación del Plan Nacional Integrado de Energía y Clima en el ámbito local

# 2 GUIDE FOR THE IMPLEMENTATION OF THE NATIONAL INTEGRATED ENERGY PLAN AT LOCAL LEVEL

The National Integrated Energy and Climate Plan (PNIEC, in Spanish) is aimed at ensuring the achievement of the long-term objectives of the Energy Union for 2030, in line with the 2015 Paris Agreement. It is a concept paper that defines the targets for greenhouse gas emissions reduction, energy efficiency and renewable energy penetration.

In order to transfer the objectives of the PNIEC to the local level, this Guide identifies alternatives, measures and actions through which Local Governments, based on its competences, can contribute to the fulfilment of the objectives of the Plan.

To this end, opportunities in the following fields are analysed:

It also analyses the barriers present in all the fields of action of the Local Governments.

## CALCULATION OF CARBON FOOTPRINTS AND MUNICIPAL ABSORPTION PROJECTS

The Spanish Network of Cities for Climate has been supporting its members in the calculation and registration of their carbon footprint since 2014, with the aim that they know their greenhouse gas emissions and can act to reduce them.

To this end, in addition to calculating the carbon footprint of the facilities and premises owned by the Local Government, carbon footprint reduction plans are drawn up so that they can be registered in the Carbon Footprint, Offsetting and Carbon Dioxide Absorption Projects Register of the Ministry for Ecological Transition and the Demographic Challenge.

As a result, an evaluation of the situation of the carbon footprint of almost thirty Local Governments has been obtained. The year selected for the calculation of the carbon footprint was mostly 2019, except in some cases where it was calculated for several years to evaluate the evolution of emissions and to obtain the Reduzco seal. This project also enabled recognition by the Ministry through the registration of the footprints calculated in the Register.

The Absorption Projects have been incorporated to this edition of the project: their definition is included in Section B of the Registry of Carbon Footprint, Offsets and Carbon Dioxide Absorption Projects of the Ministry for Ecological Transition and the Demographic Challenge, with the aim of knowing which reforestation projects are being developed by the Local Governments that have participated in the project and assessing the possibility of their inclusion in the Registry.

Finally, it should be noted that a guideline has been drawn up which includes the essential points to which Local Governments should pay attention in order to develop an absorption project that can be included in the Register.

# CURSO DE CÁLCULO DE HUELLA DE CARBONO

Y ELABORACIÓN DE PROYECTOS DE ABSORCIÓN
PARA LA RED ESPAÑOLA DE
CIUDADES POR EL CLIMA

# 4 | ABSORTION PROJECTS | AND CARBON FOOTPRINT TRAINING

In order to train the technical staff of the Local Governments in the calculation of the carbon footprint, for its subsequent registration, and in the elaboration of absorption projects, a training activity was designed that covered the necessary contents to acquire the required knowledge to carry out these tasks autonomously.

The training activity was organized through an on-line platform that allowed access to the theoretical contents and the practical exercises to be carried out, also providing a fluid communication between the participants and the teaching staff. The contents were structured in 6 didactic units, starting with a two-hour live workshop. The workshops were held on Tuesdays 9<sup>th</sup>, 16<sup>th</sup> and 23<sup>rd</sup> March 2021. On Thursdays, tutorials were held for the students to solve their doubts.

The didactic units were as follows:

- Introduction to Carbon Footprinting
- Steps for Carbon Footprint calculation
- Absorption projects
- Register
- Monitoring and evaluation
- Experiences and good practices

The course has allowed to train technical staff in the use of the tool of the Ministry for Ecological Transition and the Demographic Challenge for the calculation of their Local Governments carbon footprint.

# 5 ON-LINE CLIMATE ACTION WORKSHOPS

This cycle of workshops was intended to address the proposals put forward at the Network's 13<sup>th</sup> General Assembly, to debate on the most interesting topics on climate change, both in mitigation and adaptation. A total of 7 workshops were held in an on-line format, due to the health situation, which allowed a very high participation, with well over a hundred attendees in each one.

## ◆ ENERGY PLANNING AND OPPORTUNITIES TO DEVELOP DISTRICT HEATING AND COOLING NETWORKS: THE USE OF THE THERMOS TOOL

The Spanish Network of Cities for Climate, with the collaboration of the City Council of Granollers, held on 26<sup>th</sup> November 2020 a practical workshop dedicated to "Energy planning and opportunities to develop district heating and cooling networks".

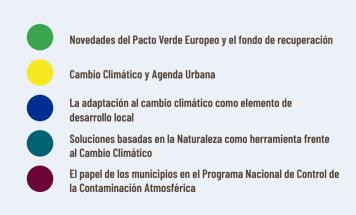

Several experiences of heat and cold networks in urbanized areas in Spain were presented and some City Councils of the Network presented their experience in the implementation and operation of a heat and cold network, as well as in the use of the Thermos tool for its design and monitoring.

#### NOVELTIES OF THE EUROPEAN GREEN PACT AND THE RECOVERY FUND.

On 20<sup>th</sup> January 2021, the on-line workshop on "The novelties of the European Green Pact and the Recovery Fund" was held with the aim of informing Local Governments about the European Green Pact and the latest events in relation to its development. It also analyzed the sources of funding available to Local Governments for a socioeconomic recovery through a process of ecological and just transition.

To this end, experts in the field presented the characteristics of the European Green Pact and its relationship with other strategies, such as Just Transition. The City Council of Gavà was responsible for providing the local vision and experience.

#### CLIMATE CHANGE AND URBAN AGENDA

On 3<sup>rd</sup> February 2021, the workshop "Climate Change and Urban Agenda" was held with the aim of informing Local Governments about the opportunity that the Spanish Urban Agenda represents to build climate neutral and resilient towns through a process of ecological and just transition.

To this end, an exchange of local experiences was carried out, the result of which will serve as an example to other entities to successfully face the challenge of climate change. The workshop was developed around the opportunity offered by the Urban Agenda as a planning tool to design climate actions that favor adaptation, considering social cohesion and quality of life, developing an ecological and multifunctional city that protects natural resources and is integrated in the territory and implementing an urban planning process with the participation of all citizenship.

#### ADAPTATION TO CLIMATE CHANGE AS AN ELEMENT OF LOCAL DEVELOPMENT

On 17<sup>th</sup> February 2021, the workshop "Adaptation to climate change as an element of local development" was held. Adaptation is to be understood as a process by which communities prepare themselves to cope with an uncertain future climate, therefore it is necessary to integrate adaptation into city planning.

In order to present the repercussions that the National Plan for Adaptation to Climate Change has for Local Governments, the Spanish Office for Climate Change took part in the event.

Sector	Lines of action of the PNACC	Examples of initiatives at local level
HEALTH	LA 2.2. Preventive actions against the effects of excess temperatures on health	Local heat wave protocols Climate shelters
HEALIT	LA 2.4. Preventive actions in the event of atmospheric pollution episodes	Local anti-pollution protocols
WATED	LA 3.3. Contingent drought risk management integrated into water management	Local drought plans
WATER  LA 3.4. Coordinated and contingent flood risk management		Local Civil Protection plans Urban planning
NATURAL	LA 4.2. Planning and management of protected areas with adaptive criteria	Adaptive planning of local management in PA
HERITAGE	LA 4.3. Improving the adaptive capacity of Green Infrastructure	Improvement of the urban Green infrastructure
DESERTIFICATION	LA 5.4. Promoting the prevention of desertification and the restoration of degraded lands	Rehabilitation of abandoned and altered surfaces, such as mining areas and landfills
FOREST FIRES	LA 5.5: Integration of climate projections and adaptation measures into wildland fire policy	Fire prevention in the urban- forest interface.  Local Civil Protection plans
FOOD	LA 6.5. Development of communication actions on the relationship between food and climate change for a more responsible food consumption	Local strategies for food

Table: Lines of action of the PNACC 2021-2030

In the following round table, the situation of some adaptation actions developed by Local Governments was presented, as well as the difficulties encountered in their development and the benefits obtained with their implementation.

#### LOCAL ENERGY COMMUNITIES

A workshop on "Local Energy Communities" was held on 24<sup>th</sup> February 2021 with the aim of making Local Governments aware of the characteristics of the different typologies of energy communities.

To this end, the Institute for Energy Diversification and Conservation (IDAE, in Spanish) participated in the event, presenting the European and national framework in which local energy communities can be developed, highlighting the central role of the consumer.

The round table of local experiences, moderated by Joan Herrera Torres, Director of Energy and Environment of the City Council of El Prat de Llobregat (Barcelona), presented three experiences of local energy communities in different stages of implementation: the electric cooperative of the City Council of Crevillent (Alicante), the energy company Vilawatt of the City Council of Viladecans (Barcelona) and the energy community of Rivas-Vaciamadrid (Madrid).

#### NATURE-BASED SOLUTIONS AS A TOOL TO ADDRESS CLIMATE CHANGE

The "Nature-based Solutions as a Tool against Climate Change" workshop was held on 3<sup>rd</sup> March 2021, with the aim of raising awareness of which nature-based initiatives contribute to climate change mitigation and to sustainable adaptation to its effects.

To this end, the International Union for Conservation of Nature (IUCN) participated in the workshop with a precise presentation on what Nature-based Solutions are, their requirements and benefits.

In the following dialogue table, the Spanish Office for Climate Change (OECC, in Spanish) presented the role of Nature-based Solutions for the reduction of CO<sub>2</sub> emissions and the adaptation to the impacts of climate change.

Lastly, the local participation included the presentation of Nature-based Solutions in different stages of development and implementation, all of them of great interest.

## ♦ THE ROLE OF TOWNS IN THE NATIONAL AIR POLLUTION CONTROL PROGRAMME

The last workshop of the cycle, which took place on 24<sup>th</sup> March 2021, was organized with the aim of informing Local Government on the new National Air Pollution Control Program and analyzing the role they can play in its implementation. To this end, the Energy, Environmental and Technological Research Centre (CIEMAT, in Spanish) and the Ministry for Ecological Transition and the Demographic Challenge participated in the workshop.

The City Councils of Gijon, Santander and Puertollano participated in order to offer the vision of the Local Governments.

# SCHOOL CAMPAIGN ON CLIMATE CHANGE

Since 2015, the School Campaign on Climate Change has been carried out to provide Local Governments with tools to raise awareness among primary school students about what they and their families can do to avoid contributing to climate change.

Due to the demand of the Local Governments belonging to the Network, the Campaign has expanded its contents of both physical and on-line materials.

During this edition, new digital materials were designed to emphasize the role of sustainable mobility in the fight against climate change.

For this purpose, a new educational video was produced in which Klimatea, an animated robot, explains, through simple examples, the problems caused by the excessive use of motor vehicles in cities and what children can do to achieve sustainable and safe mobility.

Interactive activities were also developed to reinforce knowledge about the importance of sustainable mobility and to show which actions help to fight climate change and are beneficial to our planet.

All these activities are included into the "Guide for Teachers", which explains the contents and objectives of the Campaign, and is completed with proposals for activities to be carried out in the classroom. In addition, the Guide indicates whether the materials are available in Spanish or English.

All the information of the Campaign is available with free access on the website of the Spanish Network of Cities for Climate: http://www.redciudadesclima.es/campaign

# 7 | PARTICIPATION IN EVENTS, CONFERENCES AND COLLABORATIONS

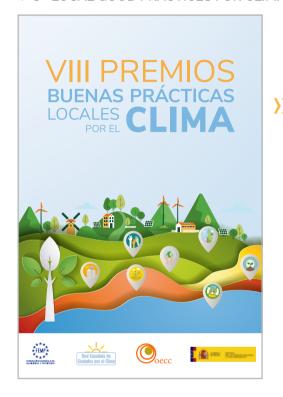

During 2020 and the first quarter of 2021, the President of the Network, and Mayor of Seville, Juan Espadas, as well as other members of the Network, participated in conferences and events related to climate change:

- Launching day of the project CityCouncils #ForClimate.
  - On 24<sup>th</sup> March 2021, the "Community for Climate" initiative presented its new project, CityCouncils #ForClimate, supported by the Spanish Network of Cities for Climate and the Spanish Office for Climate Change, and held a conference on the opportunities provided to Local Governments by the European Funds for sustainable recovery.
- On 27th March 2021, WWF organized the "Earth Hour".
  - The President of the Spanish Network of Cities for Climate and the Secretary General of WWF invited the City Councils to actively participate in this initiative, which was also included in the Network's website.
- Publications "Nature-based Solutions to fight Climate Change" and "Nature-based Solutions in Mediterranean Cities".
  - During the Nature-based Solutions workshop, the International Union for Conservation of Nature (IUCN) presented two of their works, closely related to the topic being discussed. Since the publications were in English and French, with the IUCN authorization, the Spanish Network of Cities for Climate has translated both documents to facilitate the access to its members.

The publications are available on the Network's website: https://www.redciudadesclima.com/

# 8 | CITIES FOR CLIMATE LIBRARY AND AUDIOVISUAL DOCUMENTATION

♦ 8th LOCAL GOOD PRACTICES FOR CLIMATE AWARD

The 18th volume of the "Cities for Climate Library" compiles more than 90 actions presented to the 8th Local Good Practices for Climate Award, to provide the broadest dissemination to these local actions. For this purpose, together with the on-line publication, the good practices can be consulted in a microsite included on the website of the Spanish Network of Cities for Climate.

https://www.redciudadesclima.com/ premios-buenas-practicas

Likewise, for the winning and finalist practices, videos have been made summarizing the projects that have been carried out in each case.

#### NOVELTIES REGARDING THE EUROPEAN GREEN PACT AND THE RECOVERY FUND.

The 19<sup>th</sup> volume of the "Cities for Climate Library" is a Guide that collects the contributions and remarks made by the panelists of the workshop held online, on 20<sup>th</sup> January 2021, on the new features of the European Green Pact and the Recovery

https://www.redciudadesclima.es/jornadas

#### CLIMATE CHANGE AND URBAN AGENDA

The "Cities for Climate Library" compiles in its 20<sup>th</sup> volume the role of the Spanish Urban Agenda in the climate actions implemented by Local Governments. This Guide also includes the contributions made by the panelists who participated, on 3<sup>rd</sup> February 2021, in the online workshop held on "Climate Change and Urban Agenda".

This digital publication is completed with a video that collects the most relevant ideas contributed during the workshop.

#### ◆ ADAPTATION TO CLIMATE CHANGE AS AN ELEMENT OF LOCAL DEVELOPMENT

The 21st volume of the "Cities for Climate Library" was dedicated to the contents addressed during the online workshop, held on 17th February 2021, on adaptation to climate change as an element of local development, in which the contents of the new National Plan for Adaptation to Climate Change and successful local experiences were presented. This Guide is also completed with a short video that includes the workshop's most relevant contributions.

#### ♦ NATURE-BASED SOLUTIONS AS A TOOL TO ADDRESS CLIMATE CHANGE

The 22<sup>nd</sup> volume of the "Cities for Climate Library" includes the contents addressed in the workshop on Nature-based Solutions as a tool against climate change, held on 3<sup>rd</sup> March 2021, as well as indications on the role that these projects play to tackle the effects of climate change in our country.

As in the previous cases, a video has been edited summarizing the most relevant contents.

#### ♦ NATIONAL ANTI-POLLUTION PLAN WORKSHOP GUIDE

The 23<sup>rd</sup> volume of the "Cities for Climate Library" comprises the contents addressed during the workshop on the National Plan Against Atmospheric Pollution, held on 24<sup>th</sup> March 2021.

# 9 | WEBSITE

The Spanish Network of Cities for Climate has its own website, which main objective is to present the activities organized by the Network and its members, to inform about the most relevant actions and news on climate change and to facilitate the incorporation of new Local Governments to the Network.

The website is regularly updated with the reports and documents produced by the Network and with the information and news that the members of the Network send to the Secretariat.

To achieve greater dissemination of the actions of the Network and its members, a brief monthly newsletter is drawn up and sent to all the representatives and stakeholders of the Spanish Network of Cities for Climate.
